**333 Pearl Street (Building #8), Apt. 10J
New York, New York 10038**

PROFILE: I have been a city and environmental planner for over twenty five years. I am interested in serving the community and bringing an open mind, a great set of skills and my perspective to the SBT Board.

YEARS AT SOUTHBRIDGE TOWERS: 15

PROFESSIONAL EXPERIENCE:

Since 1997 I have been consulted by municipal officials, property-owners and citizen groups. Between 1987 and 1997 I was Director of Planning for a well-regarded Hudson Valley environmental planning firm. I am experienced with the review of development projects, authoring legislation, reviewing government initiatives, commenting on agency construction programs and working with City officials.

My educational background includes a BA from New York University (1985) in Politics and Sociology, and a Master's degree from Pratt Institute (1990) in City and Regional Planning. I am a member in good standing of the American Institute of Certified Planners, the accreditation institute for city planners. In order to be a member, members in good standing must complete continuing education in the field and in the related disciplines of law and ethics. I have also completed educational requirements for environmental inspections (typically done prior to mortgage and financing approvals). I am also a NYS Notary Public.

With regard to SouthBridge, my expertise lies in the area of government relations, land use planning and zoning, master planning, permits, the environmental effects of construction and other activities, hazardous materials storage, due diligence and construction materials abatement, property financing and fiscal matters, and project oversight.

I believe I would be an asset to the SBT Board and look forward to serving the community.
